## CAREER OBJECTIVE

I aim for a professional career by developing myself in the fields of web and software development. I want to gain experience by working on various projects during my internship, and to improve my teamwork and problem-solving skills. I am open to learning new technologies and aim to continuously carry myself forward in the software world.

## EDUCATION

2023 - Present

**Izmir University of Economics**, Vocational School

Associate Degree

Computer Programming, GPA: 2.92 / 4.0

(Expected graduation date: 2026)

## JOB / INTERNSHIP EXPERIENCE

February 2024 – August 2024

*Volunteer Internship*, **XZ Electronic**

- I contributed to desktop development projects and coding processes.
- I received training in the Python programming language.
- I gained experience in work division and project planning processes by adapting to teamwork.
- I improved my time management and stress-coping skills.

June 2025 – July 2025

Mandatory Internship, **Bimar IT Services - Arkas Holding**

- I worked in the software development department and conducted Oracle SQL training and practical applications.
- I participated in back-end / front-end development processes and contributed to small-scale software projects.
- I developed applications using the C# programming language.
- I gained knowledge in debugging and problem-solving.
- I gained experience in software development workflows (analysis, coding, testing, and debugging).
